Rechargeable Multi-color Lantern with Built-in Power Bank
Thank you for your purchase!

Features:
1 – On/Off | Dimming
2 – Mode Selection
3 – Tethered USB Port Door
4 – USB-A Output
5 – USB-C Input
6 – Battery/Charge LED Indicators
7 – Metal Handle

Warranty

At Ubio Labs, we are dedicated to designing and manufacturing products with superior performance and 100% customer satisfaction. All of our products come with a 1-year limited warranty from date of purchase.

We are always improving our products’ features and functionality. We reserve the right to change product specifications at any time without notice.

**For Best Performance:**
Fully charge the lantern before first use.

**Device Charging**

The lantern’s built-in 12,000mAh rechargeable battery can be used for charging.

The USB-A provides 12W output for compatible devices. The lantern will automatically power on when a device is detected.

The battery capacity LEDs will be lit during charging.
Mode Selection

1. WHITE  
2. CANDLE  
3. MULTI-COLOR  
4. COLOR CYCLE  
5. OFF

Mode Cycle:
1 – On (White Light)  
2 – Candle Flicker  
3 – Multi-Color  
4 – Color Auto-Cycle  
5 – Off

Press Down to Power On:
Press again to cycle through all the modes and then finally to turn off.

Power Off:
To power OFF in any mode, press and hold button for 1.5 seconds to turn off lantern.
Dial Function

White Light Mode, Candle Flicker Mode, Color Auto-Cycle Mode:
Turn the dial clockwise to increase intensity. Turn dial counter-clockwise to decrease intensity. Once the light level reaches the maximum brightness (or minimum), turning the knob will have no effect.

Multi-Color Mode: turn the dial to adjust color across the color spectrum.
IPX4 Splashproof

IPX4: The product is splash-proof: it may be exposed to splashing water coming from any direction (360°). If water enters the product, it may be damaged. Strictly follow these instructions to prevent damage to the product and keep the product waterproof. The product should not contact water jets with high pressure. If the product is exposed to water, dry it thoroughly with a clean, soft cloth. If the product comes in contact with other liquids (e.g. salt water, pool water, soapy water) or chemicals (e.g. cosmetics, oil, perfume, sunscreen, hand sanitizer) immediately rinse it with a clean, soft cloth. Failure to follow these instructions may affect product performance and appearance. Your product has been tested in a controlled environment and has been certified to be waterproof under certain conditions (in conformity with IEC 60529 international standard, IPX4 requirements of the degree of protection provided by seal).

Technical Specifications:

Component: UTL1002
Input: 12W 5V, 2.4A USB-C
Output: 12W 5V, 2.4A USB-A
White Light: 0-500 lumens Max, 4000 Kelvin
Color Lumens: Ra >80 lumens
Battery Capacity: Lithium-Ion 12,000mAh, 3.6V
Dimensions: 257 x ø151 mm (10.1 x ø6.0 inches)
Weight: 1 kg (35.3 oz.)
Important Safety Instructions

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Caution: The user is cautioned that changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:
—Reorient or relocate the receiving antenna.
—Increase the separation between the equipment and receiver.
—Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
—Consult the dealer or an experienced radio/TV technician for help.

WARNING – When using this product, basic precautions should always be followed, including the following:
a) Read all the instructions before using the product.
b) To reduce the risk of injury, close supervision is necessary when the product is used near children.
c) Do not put fingers or hands into the product.
d) Do not expose power bank to rain or snow.
e) Use of a power supply or charger not recommended or sold by power pack manufacturer may result in a risk of fire or injury to persons.
f) Do not use the power bank in excess of its output rating. Overload outputs above rating may result in a risk of fire or injury to persons.
g) Do not use the power bank that is damaged or modified. Damaged or modified batteries may exhibit unpredictable behavior resulting in fire, explosion or risk of injury.
h) Do not disassemble the power bank. Take it to a qualified service person when service or repair is required. Incorrect reassembly may result in a risk of fire or injury to persons.
i) Do not expose a power pack to fire or excessive temperature. Exposure to fire or temperature above 100°C/212°F may cause explosion.
j) Have servicing performed by a qualified repair person using only identical replacement parts. This will ensure that the safety of the product is maintained.
k) Switch off the power bank when not in use.

CAUTION: Risk of Fire and Burns. Do Not Open, Crush, Heat Above 45°C/113°F or Incinerate. Follow Manufacturer’s Instructions.

Important Safety Instruction when using batteries:
Rechargeable batteries are only to be charged under adult supervision. Do not incinerate.

Battery Disposal:
The lantern contains rechargeable batteries which cannot be replaced or removed by user. When disposing of the product all state and local rules and regulations must be followed.
