Portable Charging Power Bank
10,000mAh Slim Portable Battery

Indicator LEDs
- Charging power bank - USB-C input indicator blinks until power bank is fully charged
- Charging a device - Output indicator illuminates solid until device cable is removed

Battery Status LED
- Charging power bank: White light indicates battery capacity
- Power bank fully charged: White lights remain on until USB-C cable is removed
- Charging a device: White light display current capacity
- Low battery capacity (5%): Indicator - White light blinking

Charging The Power Bank
- Simply plug the power bank into the included USB-A wall charger using the USB-C cable.
- The LED indicators will turn on indicating the power bank is charging.
- When fully charged, all LED indicators will be illuminated.
- Fully charging your power bank using the included wall charger should take around 6 hours using the USB-C port.

Charging Your Device
- Your power bank is compatible with most phones and tablets, and can be used with your own cable. Simply plug your device cable into the USB-A or USB-C output to begin charging.
- When charging, the white LEDs will turn off after 6 seconds. To check the remaining battery capacity, press the power button briefly to view the white battery indicator LEDs.

Important Safety Instructions
- Please refer to the safety instructions provided by the manufacturer.
- Do not hold or manipulate the battery when charging.
- Do not place the power bank near heat sources.
- Do not leave the power bank in direct sunlight.
- Do not dispose of the power bank in the trash.
- Do not attempt to repair or modify the power bank.

Features
- Portable Power Bank
- Battery Capacity Indicator
