Charging The Power Bank
- Open the connector door to access the charging ports.
- With the included cable, plug the USB-C connector into the power bank and the USB-A connector into the included wall charger.
- The battery status LED will display the current battery capacity indicating the power bank is charging.
- When fully charged, all battery status LEDs will be illuminated.
- Fully charging your power bank from 0% battery level should take 7-8 hours.
- The power bank is capable of input charging and output charging at the same time.

Charging Your Device
- Your power bank is compatible with most USB-A exchangeable devices and is capable of charge two devices at the same time.
- Open the connector door and plug your device cable into the USB-A output to begin charging.
- When charging, the white LEDs will remain lit until the power bank is depleted.

NOTE: The power bank is capable of input charging and output charging at the same time.

Important Safety Instructions

WARNING - When using this product, basic precautions should always be followed, including the following:
1. Read all manufacturers instructions before using this product.
2. To reduce the risk of injury, close supervision is necessary when the product is used near children.
3. Do not put fingers or hands into the product.
4. Do not expose the power bank to fire or excessive temperature. Exposure to fire or temperature above 122°F may cause explosion. The power bank's working temperature is ≤95°F.
5. Do not disassemble the power bank. Take it to a qualified service person when service or repairs are required. Incorrect reassembly may result in a risk of fire or injury to persons.
6. Use of a power supply or charger not recommended or sold by power bank manufacturer may result in a risk of fire or injury to persons.
7. Do not put fingers or hands into the product.
8. Do not expose a power supply or charger not recommended or sold by power bank manufacturer may result in a risk of fire or injury to persons.
9. Do not use the power bank that is damaged or modified. Damaged or modified batteries may exhibit unpredictable behavior resulting in fire, explosion, or risk of injury.
10. Do not disassemble the power bank.

SAVE THESE INSTRUCTIONS

This device complies with Part 15 of the FCC rules. Operation is subject to the following two conditions:
1. This device may not cause harmful interference, and
2. This device must accept any interference received, including interference that may cause undesired operation.

NOTE: This equipment has been tested and found to comply with the limits for Class B digital device, pursuant to part 15 of the FCC rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses, and can radiate radio frequency energy and, if not installed and used in accordance with these instructions, may cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:
- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

Technical Specifications
Model: OPL100E
PWB1058
Lithium Poly, 15,000mAh
USB-C 5V/2.4A
Dual USB-A 5V/2.4A
Apple, Android, other USB-A compatible devices
- 4 white LEDs, each indicating 25% capacity
- Color: 300 Lumens
- Brightness: 150 Lumens
- 5.7 x 2 x 2 inches
- IP Rating: IP65
- Dimensions: 15.2 oz

Wall Charger Features

Technical Specifications
Model: CHG1002
Input: AC 110-240V, 50-60 Hz
Output: USB-A 5V/2.4A
Dimensions: 2.03 x 1.69 x 1 inches
Weight: 1.8 oz.
