We are always improving our products’ features and functionality. We reserve the right to change product specifications at any time without notice.

Lightning is a trademark of Apple Inc.; registered in the U.S. and other countries.

**Important Safety Instructions**

**WARNING** - When using this product, basic precautions should always be followed, including the following:

a) Read all manufacturers instructions before using this product.
b) To reduce the risk of injury, close supervision is necessary when the product is used near children.
c) Do not put fingers or hands into the product.
d) Do not expose portable charger to moisture, rain, or snow.
e) Use of a power supply or charger not recommended or sold by portable charger manufacturer may result in a risk of fire or injury to persons.
f) Do not use the portable charger in excess of its output rating. Overloaded outputs above rating may result in a risk of fire or injury to persons.
g) Do not use a portable charger that is damaged or modified. Damaged or modified batteries may exhibit unpredictable behavior resulting in fire, explosion, or risk of injury.

h) Do not disassemble the portable chargers. Take it to a qualified service person when service or repairs are required. Incorrect assembly may result in a risk of fire or injury to persons.

i) Do not expose the portable charger to fire or excessive temperature. Exposure to fire or temperature above 122°F may cause explosion. The portable charger's working temperature is ≤104°F.

j) Have service performed by a qualified repair person using only identical replacement parts. This will ensure that the safety of the product is maintained.

k) Switch off the portable charger when not in use.

This device complies with Part 15 of the FCC rules. Operation is subject to the following two conditions:

1) This device may not cause harmful interference, and
2) This device must accept any interference received, including interference that may cause undesired operation.

NOTE: This equipment has been tested and found to comply with the limits for Class B digital device, pursuant to part 15 of the FCC rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses, and can radiate radio frequency energy and, if not installed and used in accordance with these instructions, may cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.
