User Manual and Safety Instructions

Power Bank

Important Safety Instructions

WARNING: When using the product, basic precautions should always be followed, including the following:

a) Follow all the instructions before using the product.
   b) Before plugging the device into a power source, check for loose objects (metal objects like keys, coins, etc.) and the device is automatically turned off to ensure safety. Removal of foreign object and proper alignment of phone will result in normal operation.
   c) Do not put fingers or hands into the product. Incorrect reassembly may result in a risk of injury.
   d) Do not use power bank in excess of its output rating. Excessive output above rating may result in a risk of fire, explosion or risk of fire or injury to persons.
   e) Do not change the power bank. Take it to a qualified service person when servicing is required. Incorrect assembly may result in a risk of fire or injury to persons.
   f) Do not disassemble the power bank. Take it to a qualified service person when servicing is required. Incorrect assembly may result in a risk of fire or injury to persons.
   g) Do not use a power bank that is damaged or modified. Damage or modified batteries may result in unpredictable behavior resulting in fire, explosion or risk of fire.
   h) Do not expose the power bank to fire or excessive temperature. Exposure to fire or temperature above 100°C may cause explosion. The temperature of 100°C may be reached during normal operation.
   i) Do not expose the power bank to fire or excessive temperature. Exposure to fire or temperature above 100°C may cause explosion. The temperature of 100°C may be reached during normal operation.
   j) Have servicing performed in a qualified repair shop using identical replacement parts. The manufacturer is not liable for product malfunction resulting from unauthorized repair.
   k) Switch off the power bank when not in use. Shake to wake the power bank before charging your devices.
   l) Do not disassemble the power bank. Take it to a qualified service person when servicing is required. Incorrect assembly may result in a risk of fire or injury to persons.

Technical Specifications

Component: PWB1116
Input: Lightning Your B/W 15V / 1A
Output: 1) (5W) for Watch 
2) (7.5W / 5W) for Qi Wireless surface to charge Apple Watch, AirPods, and other compatible devices
