**Important Safety Instructions**

**WARNING:** When using this product, basic precautions should always be followed, including the following:

- Read all manufacturer's instructions before using this product.
- Do not use the wireless pad in excess of its output rating. Overloaded outputs above rating may result in a risk of fire or injury to persons.
- Use of a power supply or charger not recommended or sold by the Wireless Pad manufacturer may result in a risk of fire or injury to persons.
- To reduce the risk of fire or injury, close supervision is necessary when the product is used near children.
- Do not use the wireless pad in excess of its output rating. Overloaded outputs above rating may result in a risk of fire or injury to persons.
- Do not use the wireless pad if the input voltage is not within specifications.
- Do not expose the wireless pad to water, rain, or snow.
- Do not put fingers or hands into the product.
- Do not move the wireless pad without power.
- Do not expose the wireless pad to moisture, rain, or snow.
- To reduce the risk of fire or injury, close supervision is necessary when the product is used near children.

**FCC Regulatory Compliance**

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

Warning: changes or modifications not expressly approved by the party responsible for compliance could void the user’s authority to operate the equipment.

RF Exposure Compliance: This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. This equipment should be installed and operated with minimum distance 20 cm between the radiator and your body. This transmitter must not be co-located or operated in conjunction with any other antenna or transmitter.
